

Hybrid Kit Sun Wind Three 1.0

600311 • 7/2016

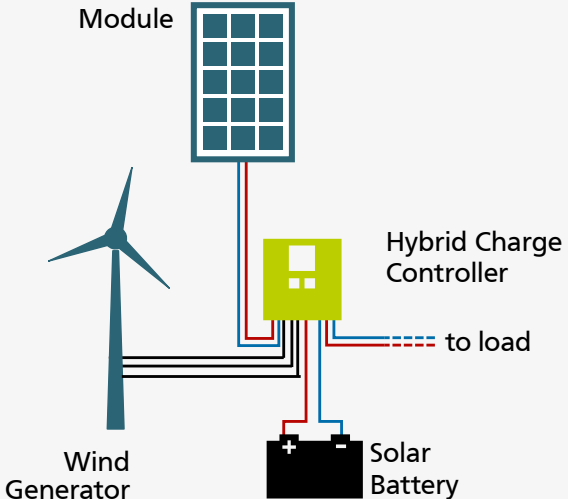

This kit is ideal for marine use. The highly efficient semi-flexible solar modules can be easily installed on deck of boats and are suitable for salt water conditions. The wind generator starts with low wind speed and is very silent.

These integrated sets allow an easy operation of 12 VDC consumers on the motor or sailing boat during the whole year.

If you connect a 230 VAC inverter, you can also supply any electrical device just as if you were on the grid!

The kit does not include the pole!

Module

Wind Generator

Hybrid Charge Controller

Solar Battery

to load

Pcs	Components
1	Solar module 107 W 12 VDC semi-flexible
1	Silentwind wind generator 400 W 12 VDC
1	Hybrid charge controller with boost 12 VDC
1	AGM Battery Sun Store 150 Ah 12 VDC
1	Cables and connectors
1	Pole mounting kit
1	Glue and cleaner
